

PRADIPTI POKHAREL

Harisiddhi, Lalitpur • 9866477784 • Pradiptipokharel7@gmail.com

SUMMARY

Detail-oriented Computer Science graduate with experience in Quality Assurance, software testing, and data analysis. Possessing strong analytical, documentation, and problem-solving skills, I am eager to contribute to quality assurance, IT operations, and system support initiatives while growing within the banking technology sector.

EXPERIENCE

Ensefy Pvt. Ltd - Quality Assurance(QA) intern.

- Conducted Software testing to ensure functionality, accuracy, and system reliability.
- Maintained test documentation, bug reports, and quality assurance records.
- Developed strong analytical, problem-solving, and attention-to-detail skills through software testing activities.

PROJECTS

Popular Songs Analysis – Interactive Dashboard

- Built a web dashboard to display trends from a popular songs dataset using React components
- Used Plotly and Pandas on the backend to process and visualise the data
- Practised passing data as props and managing simple component state

Mobile Price Predictor

- Created a React Native mobile UI that displays price predictions from an ML model
- Built basic multi-screen navigation and styled components using StyleSheet API
- Trained a Random Forest and KNN classifier on the Kaggle mobile price dataset

SKILLS

- | | |
|--------------------------|---------------------------------------|
| • MySQL | • Team Collaboration |
| • QA | • Clear Communication |
| • Software Documentation | • Attention to detail |
| • Microsoft word | • React & React Native |
| • Database Management | • Fast Learner with Strong Work Ethic |

EDUCATION

Bachelor of Computer Science

Taylor University, Malaysia

- Specialization in Data Science.

Higher Secondary Education (Science)

Capital College and Research Center, Nepal
